February 8, 1940

Gentlemen:

Due to the war and embargo by the European countries on Japanese Lilies Giganteum & Erabu, our shipper, Mr Seitaro Arai of Yokohama, Japan, prepared a shipment for Europe and while in transit converted it to America with the hopes that the war would be over soon and these bulbs could be shipped to Europe, but prospects at present do not look favorable so our Mr. Arai advised us to dispose of the bulbs to our regular lily customers at a special price.

The quantity is not large. If one-half of our customers would all purchase no more than 50 bulbs each, we would not have enough to supply them.

We are herewith giving you special prices in case lots. These prices include duty and storage charges. A few cases of Lilies planted during the months of February, March would come in very handy, much before the outdoor flowers or Gladiolus come in bloom.

We appreciate your co-operation and we hope you realize that the reason for this offer is to distribute the Lilies in general and not confine any quantity to any one place, giving all our lily customers the opportunity at these special prices.

Yours very truly,

AMERICAN BULB COMPANY

A. Miller
President
